

JASREEN

Data Analyst | Data Scientist

+91-7291814709 | jasreen2404@gmail.com | New Delhi, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Data Analyst with hands-on experience in SQL, Python, and Power BI, translating raw data into actionable business insights. Published IEEE researcher with a strong foundation in applied ML and end-to-end data pipelines.

EDUCATION

B. Tech, Electronics & Communication Engineering – Artificial Intelligence (ECE-AI)

Nov 2022 – Jul 2026

Indira Gandhi Delhi Technical University for Women | GPA: 8.72/10.0

SKILLS

- **Languages & Databases:** C++ (Advanced), HTML (Intermediate), CSS (Intermediate), R (Basics), C (Basics)
- **Data Science & ML:** Pandas (Advanced), NumPy (Advanced), PyTorch (Intermediate), TensorFlow (Basics), Matplotlib (Basics)
- **Analytics & Visualization:** SQL (Advanced), MS Excel (Advanced), Python (Intermediate), Power BI (Intermediate), Matplotlib (Basics)
- **Tools & Platforms:** Flask (Intermediate), VS Code (Intermediate), Gemini (Intermediate), Claude (Basics), Streamlit (Basics), Git/GitHub (Basics)

PROJECTS

Customer Shopping Behavior Analysis | [Link](#)

Jan 2026

- Uncovered key purchasing patterns and revenue-driving factors by cleaning and analyzing 10,000+ customer records using Python and SQL.
 - Sped up executive decision-making by building 3 interactive Power BI dashboards and an executive-level report translating insights into customer retention, marketing recommendations, and sales growth.
- Tech Stack: Python, MySQL, PostgreSQL, Pandas, NumPy, Power BI*

Depression Detection in Code-Mixed Text

Dec 2025 – Feb 2026

- Reached 93.7% accuracy detecting depressive signals in 10,000+ Hinglish social media posts by benchmarking 6+ ML/DL/Transformer models and building a CNN-LSTM hybrid.
 - Improved early mental-health risk detection reliability by handling class imbalance across YouTube, Twitter, and Reddit datasets.
- Tech Stack: Python, TensorFlow, PyTorch, Scikit-learn, Pandas*

Movie Recommender System | [Link](#)

Oct 2025 – Nov 2025

- Delivered personalized movie recommendations by designing a content-based engine using cosine similarity on vectorized metadata (genres, keywords, cast, crew).
 - Enabled real-time posters, ratings, and descriptions by building an interactive Streamlit web app integrated with the TMDB API.
- Tech Stack: Python, Pandas, NumPy, Scikit-learn, Streamlit, Flask, TMDB API*

EXPERIENCE

Computer Vision & Deep Learning Intern | Anveshan Foundation, IGDTUW

Jun 2025 – Aug 2025

- Developed and optimized CNN-based deep learning models using PyTorch, TensorFlow, and OpenCV, improving inference efficiency by ~20% through architectural tuning and preprocessing optimization.
- Built an end-to-end pipeline for a Multi-Disease Diagnosis system for chest X-rays spanning 112,120 images from 30,805 patients, achieving 89.6% classification accuracy across multiple disease categories.

Python & ML Intern | COE-AI, AI Club IGDTUW & Anveshan Foundation

Jun 2023 – Jul 2023

- Improved model performance by up to 15% by designing, training, and validating 5+ ML models in Scikit-learn and TensorFlow through feature engineering and model selection.
- Cut onboarding time and manual effort by 50% by standardizing data processing pipelines using Pandas and NumPy.
- Deployed ML solutions for interactive inference using Streamlit and Flask, translating problem statements into production-ready tools.

ACHIEVEMENTS & CERTIFICATIONS

- Claude Code in Action & AI Fluency: Framework and Foundations - Anthropic Academy Apr 2026
- **IEEE Xplore Publication:** “Computational Approaches for Emotion, Depression and Suicidal Detection in Hinglish Text” Mar 2026
- International Conference Paper Presentation, IEEE IMPACT 2026, Aligarh Muslim University Mar 2026
- Data Analytics Job Simulation - Deloitte Australia (Forage) Apr 2025
